

*Crista*

*Ljubljana, 28th September 2011*

*DWG meetings - work & pleasure*

*21st August 2012: We lost Crista.*

*Drugs Working Group is sad, but for the future we will remember nice moments we shared with Crista privately and professionally!*

*From friends and colleagues...*

*I can't imagine it is possible, life is so unfair. We had really good time in various projects. What can we say, except that we really have to enjoy every moment...*

*I read the Email of you and I can't believe it, that Crista will not be with us in the next meeting and that she is dead.*

*Such sad news, please extend our deepest sympathy to your colleagues and Crista's family from all at Strathclyde.*

*I am very saddened to hear this terrible news. I cannot believe that dear Christa has gone. I am so so sorry.*

*...this is a really sad news that I read today. Crista was indeed a very good person, a colleague that everybody did appreciate.*

*It was sad news about Crista..*

*I just received the unbelievable information about Crista. Her positive and reliable attitude in her work has also been reflected in her last challenge. With her we lose a loveable colleague and friend.*

*We lost a great person and excellent colleague.*

*Crista will stay in my best memories forever.*

*Not only for us but also for the DWG was Crista a dear colleague and friend..*

*I just want to say that we are very sorry for the loose of Crista. She helped me a lot and she was a wonderful person.*

*I received your tragic e-mail about Christa. I have been with DWG group meeting and also with Christa only in Ankara meeting. But I would like to share my feelings as well as my signature. I am that, very sorry to hear about Please accept my condolences. God rest her soul and may god give patience to her husband and her relatives.*

*This is really sad news.*

*Have no words, am only said, as I still believed that something will work and Crista and her positive spirit will win...*

*I was so sorry when I got this message. I was thinking about I have a conversation with her at the party in Turkey last year and she seemed well and not sigh!*

*I'm so sad to hear this terrible and unthinkable news.... ... our condolences to her husband Guido.*

*No words to express our feelings for this loss. We will all miss her. May she rest in peace..I remember, in Ankara, May 2011, when I proposed the organisation of the workshop in EAFS 2012 in the Hague, and expressed my doubts if I could make it there, she assured me that she would be there and help. Who could ever imagine at that time that she would leave this world right on the day that this workshop would be realized? The plans of God are so much different than ours, sometimes...*

*...with the sadness in my hearth I have read about Crista. I knew she had health problems, but I didn't realize she was so ill. I would like to express my sorrow to Guido and my grief today is so huge. I have no photo to send, the pictures of Crista are imprinted in my memory. Now it's 4 years I stepped down the working group, but when I attended my first one, some years ago, she was there, in the steering committee, involved in the organization of the meeting. Crista was my first contact in the group, with her kindness, always perfect, always helpful, working hard and always with her sweet smile for everybody. Every time, at the end on the meeting, we say good bye each other and there was always a new hello with Crista at the next meeting the year after. In Italy there is the same word to say good bye and to say hello to a friend. This simple word I would like to address to our friend Crista, please Sonja give it to Guido:*

*ciao Crista.*

In memory of Cista's gentleness and strength  
My heartfelt condolence

Indigunia

For our friend and  
colleague, Cista!
