

FORENSIC SCIENCE SYMPOSIUM

ENFSI, US DEA and UNODC are pleased to announce the first in a series of jointly organised online symposia for forensic laboratories, to explore scientific solutions to current challenges in international drug control and provide a platform for timely sharing of experiences.

Dates and topics as follows:

Sept. 27, 2021 – Analysis of Cannabis and Cannabis Products

Oct. 4, 2021 – Overcoming Analytical Challenges in Identification of New Psychoactive Substances

Oct. 12, 2021 – Clandestine Manufacture of Methamphetamine

Registration information for the above sessions will be made available in mid-August.
